Poll Methodology and Process

The 2012 Harris Interactive College Football Poll is comprised of former players, coaches, administrators and current and former members of the media who have committed to submit rankings for the top 25 college football teams each week. These panelists were randomly selected from among more than 300 nominations submitted by the 11 Football Bowl Subdivision (formerly Division I-A) offices and the independent schools. The panel has been designed to be a statistically valid representation of all 11 Football Bowl Subdivision conferences and independent institutions. Today, 115 poll participants submitted their top 25 college football team rankings.
